

Who We Are: IEEE members and non-members in the global power, energy, communications and IT/computing industries as well as government and academia

The Mission of IEEE Smart Cities:

- To be recognized as the authoritative voice and leading source of credible technical information and educational content within the scope of smart cities identified below.
- To facilitate and promote both the collaborative and individual work of its Member Societies regarding smart city technology.

Our Vision: The IEEE Smart Cities Initiative will bring together IEEE's broad array of technical societies and organizations to advance the state of the art for smart city technologies for the benefit of society and to set the global standard in this regard by serving as a neutral broker of information amongst industry, academic, and government stakeholders.

WHAT MAKES A CITY
SMART?

Functional Domains:

- Sensors and Intelligent Electronic Devices
- Communication Networks & Cyber Security
- Systems Integration
- Intelligence & Data Analytics
- Management & Control Platforms

FUNCTIONAL DOMAINS ENABLE SMART CITIES APPLICATIONS
